

Toni Barazza, Aplus.Net Project Manager

How I got to Bulgaria

Back in 2005 I visited my boyfriend, who was working as a Customer Support supervisor in Bulgaria. I instantly fell in love with the country and the people and I decided to stay. Being an English native speaker I was able to find a job as a web design project manager at the same company and I began to settle in.

How I got to using RSB's services

Settling in to a new life in Bulgaria was a daunting task - registering with local authorities, paying bills, getting to know Bulgaria and our way around Sofia, and even finding someone to watch over the cat while we travel. These problems were solved when we met Dimitar Lambov (co-founder of RSB), who not only showed us around and helped with our registration and visas, but also became a close friend!

My best experience

This picture was taken at Nessebar's old church grounds. It is only one of the many great memories I will keep from Bulgaria and one of the many fun moments I've had thanks to Relocation Services Bulgaria!
